**\$775,000**

**2 Bedrooms | 1.5 Bathrooms | 1,340 Sqft**

Water front acreage 20-25 minutes South of Charleston! Have your own little piece of the country with beautiful marsh/creek views on Wallace Creek. Over 2/3 of the 6.5 acre property are wooded providing plenty of privacy from the main road. This property offers a single level home and a large Barn/Garage combination (Both are in need of some TLC). The home was renovated/restored at some point but given this is an estate the PR does not know the dates. The property offers lots of possibilities and potential for your own retreat and/or workspace. The PR has scheduled to have the property and grounds cleaned up which will take some time, beyond this the property will be sold as it sits today.
