Most homes come with a to-do list. This one doesn't. The current owners have already handled the big-ticket upgrades, starting with a roof just 2.5 years old--so you can move in with confidence. Gutters were added in recent years, and the home has been under a continuous termite bond since it was built, offering long-term protection and peace of mind. Inside, hardwood floors run throughout the home, with plush new carpet creating a cozy retreat in the primary bedroom. The primary suite has been thoughtfully upgraded with a sleek glass shower door, while the custom-designed closet features built-in shelving and a jewelry cabinet that adds both style and function. The kitchen is designed for both everyday living and entertaining, with an open floor plan and surround sound speakers. Come see!
