3 Bedrooms | 2 Bathrooms | 1,152 Sqft

This lovely home sits just before a cul-de-sac on a quiet street just minutes from access to everything life requires! This growing area is only 8 minutes to I26, and just 13 minutes to both historic Summerville and Dorchester Rd, making this a great blend of peace and accessibility. As soon as you enter you're greeted by an open, renovated living space that flows into the open kitchen with solid surface counters and an island, a major upgrade from the original galley style. The back half of the home is split into two sides. The entire left side holds the master suite with full bath and walk-in closet, while the right side has two guest beds separated by another full bath. The back door will take you to a peaceful space with a patio, tall trees, and room enough to play in the grass.
