Opportunity awaits to live in Hobcaw Creek Plantation, one of Mt. Pleasant's most coveted neighborhoods. With a smart floor plan and neutral palette this home is ready for its new owner to reimagine and make it their own! The spacious primary bedroom is on the main level along with a formal dining room, a sitting room (currently being used as home office) and an eat-in kitchen open to the living area. Perhaps the nicest feature though is the expansive elevated screened porch overlooking the tidal creek. Upstairs are 3 additional bedrooms, one of which also makes a great media/game room. Hobcaw Creek is known for its unique community, a Low Country playground with boat launch access to deepwater, crab docks, tennis & pickleball courts, and pool-home to the neighborhood swim team!
