4 Bedrooms | 3.5 Bathrooms | 3,456 Sqft

Coastal charm meets casual elegance in this stunning, elevated home in the highly sought-after Liberty Hill Farm neighborhood. Built in 2024, this barely lived-in, exquisite home combines the best of new construction with thoughtful upgrades you won't find in a standard build. Nestled towards the end of a quiet cul-de-sac this home welcomes you onto its elevated, Plantation style, double-front porch and begs you to "set a spell" on your choice of inviting porch chairs. Entering the home, you'll appreciate the welcoming foyer, 9'+ ceilings, upscale LVP flooring, and other features that hint at the custom details found throughout the home. On your left are glass French doors welcoming you into the office/den. To the right is the MIL suite w/custom closet and gorgeous walk-in shower ensuite. Continuing through the foyer entrance you'll find the beautiful formal dining room on your left boasting crisp, white wainscoting and spacious enough to accommodate friends and family for all your special-occasion dinners. The centrally located great room across from the kitchen features a focal-point gas fireplace. A wall of windows across the back allows for an abundance of natural light. The easy flow from this space onto the screened-in porch, open porch and the kitchen makes this home's floor plan as ideal for entertaining as it is for everyday living.
