Welcome to 5118 Blair Road in Myers Mill! This established community tucked in just off of Central is minutes from all the Knightsville conveniences for shopping and dining. This home is positioned on the amenity side of Myers Mill making trips to the pool on a hot summer day quick and easy. One thing that is getting harder to find in our area is a large yard and this one has it in spades. The back yard is ready for all kind of play or maybe even a soccer game or two. If you think that there is only space on the outside, step right up and take a look inside. As you walk in the front door you will see a dining room on your right with a passage way through to the kitchen and a flex room on the left perfect for an extra sitting area or an office. Continuing through, you will pass a staircase on the left and then enter the great room. This large space is filled with natural light from four long windows and is anchored by a fireplace with gas logs making it a warm and cozy center of the home. The eat in area and large bar make it easy for friends and family to chat and visit while you prepare dinner on fun group nights. The kitchen has tons of cabinets, granite counter tops, a pantry and hosts a suite of stainless steel appliances. Just off of the kitchen sits a hallway that rounds out the first floor with a storage closet, a convenient half bath and a laundry room. Up the stairs, you will find
