Downtown Charleston townhome with no HOA, two deeded off-street parking spaces, and a front door one block from Colonial Lake -- a combination that almost never appears in a single Harleston Village listing. 2 Gadsden Street is a fully reimagined 3 bedroom, 3 bath townhome in the heart of historic downtown Charleston, sitting directly next to William Moultrie Playground and a short walk to The Battery, Charleston City Marina, King Street, MUSC, Roper Hospital, and the College of Charleston. From the front steps, the peninsula unfolds on foot. Inside, the first floor lives like a single-family home rather than a townhome. The open layout centers on an entertaining-scale kitchen anchored by a marble island seating three, solid quartzite counters and backsplash, custom cabinetry, a 30-inch professional gas range with vent hood, and a walk-in butler's pantry with wine fridge. Oversized windows, plantation shutters, and a dedicated tiled laundry room finish the main level. Upstairs, the primary suite features an en-suite bath with Carrera marble and a walk-in shower. The guest bath offers a soaking tub with Calacatta Viola marble flooring, and custom closet cabinetry runs through both guest bedrooms. The private rear patio is paver-landscaped with exterior storage. Two off-street deeded parking spaces convey with the home. There is no HOA and no regime
