Welcome to a property that defines the difference between a house that's been "flipped" and a home that has been deeply loved, thoughtfully designed, and diligently perfected. This 3bed 2bath ranch is situated on a private 1.4 acre lot, this isn't an investor special--this is a private sanctuary where every single detail was curated with the intention of staying forever. From the moment guests pull into the drive, two massive & mature Live Oaks anchor the front yard and make an unforgettable statement, casting beautiful dappled shade and offering the kind of timeless Southern curb appeal that money simply cannot buy. Step through the front door into an open floor plan designed for both effortless entertaining and cozy daily living. It's a must see home, don't waste any time!
