3 Bedrooms | 2 Bathrooms | 1,000 Sqft

Welcome home to this charming all-brick ranch in the heart of Goose Creek! Offering 3 bedrooms, 2 bathrooms, and a thoughtfully maintained interior, this home combines classic character with an impressive list of updates and long-term improvements. The spacious living room features a cozy gas fireplace with remote control, fan, and thermostat, while durable flooring flows throughout much of the home. Major investments over the years include double-paned gas-filled windows, architectural roof with ridge vent, updated HVAC systems, tankless water heater, whole-home Generac generator, and a recently installed Gree A/C unit. The hall bathroom received a beautiful Re-Bath renovation in 2025, and the home also benefits from a lifetime-warrantied foundation stabilization system. Outside, you'll find the true showstopper--an enormous backyard offering exceptional privacy, complete with a large patio, paver sitting areas, mature landscaping, irrigation system, storage shed, privacy fencing, and plenty of room to entertain, garden, or simply enjoy the peaceful setting. With decades of meticulous ownership and maintenance, this move-in-ready home is a rare find!
