4 Bedrooms | 3 Bathrooms | 2,800 Sqft

Tucked away in the middle of Mount Pleasant lies Quiet Road, an enclave consisting of a handful of homes. Built less than two years ago, this is truly a turn-key property. Some of the many finishes and upgrades include hardwood floors throughout (tile baths), 9 foot ceilings on both levels, board and batten foyer walls, 6" base moldings and a stunning next-level kitchen. The main level features a study/home office and a bedroom with a full ensuite bath. The upstairs primary bedroom with its vaulted ceiling, transom windows and luxurious bath truly feels like a private sanctuary. A nice screened porch and deck overlooks the private enclosed backyard. Quiet Road is private and used only by homeowners and their guests.
