4 Bedrooms | 2.5 Bathrooms | 2,280 Sqft

Wonderful house built in 2020 in one of Johns Island's favorite communities, Oakfield. This 4 bedroom house has all the new features and efficiency of a new home, without worries about roof replacement, HVAC, or old appliances. As you walk in, the first thing you notice is open space. The foyer opens up to the large family room, with ample windows and plenty of light. Beautiful dark floors complement the light color palette of the walls and tall 9' smooth ceilings. Leading towards the kitchen, there is enough room for a full dining table to entertain family and friends. The kitchen exhibits granite countertops with plenty of cabinet space and separate island for entertaining. Beautiful sleek stainless alliances with tasteful recessed lighting and a pantry to balance this kitchen out. Upstairs, we have a large open bonus area/loft well suited as a media room, workout space, extra office, or lounge area. The primary bedroom has plenty of room for a king bed and furniture, views of the back yard, large primary bathroom and 2 walk-in closets. 2 other rooms complete upstairs and one other bedroom/office downstairs for guests. The back porch area is wonderful for outdoor gatherings and cookouts, and the back yard (one of the larger lots in the neighborhood) is enclosed in a full privacy fence for the pets, young ones, or potential pool! Johns Island continues
