Picture this: golf cart cruising less than a mile down to the brand-new, multimillion-dollar amenity center, or a stroll along your backyard private pond. This isn't just a home, it's a lifestyle waiting for its next chapter, and it starts on one of the most coveted lots in the entire community. Perched on a premier corner lot, 1028 Captain View Ct offers sweeping views of one of the neighborhood's largest ponds, a rare find made even rarer by the walking path that wraps around it. Morning coffee, evening sunsets, weekend walks with the dog. This is the kind of setting you dream about, not the kind you settle for. And the home itself? Better than new construction, without the wait. While the builder homes down the street are still bare bones, this one has already been thoughtfully finished, so you can move in and start living. Appliances already delivered. Blinds already hung. A crisp aluminum fence already framing the yard. Light fixtures that add just the right touch of personality throughout. This one is home. This is a true diamond, shining brighter than anything the builders are currently offering. Corner lot. Water views. Walking path. Move-in ready. Just a short distance to the new amenity center that's about to redefine the neighborhood. Homes like this don't come around often, and when they do, they don't stay long. Don't let this one slip away!!
