Welcome to this stylish and grand home set on a large lot in the Lake Murray community of Spence Plantation. Upon entering the home you'll notice the attention to detail in both the quality of construction and the recent updates: High ceilings, hardwood floors, crownmolding, new windows and doors, custom built-in cabinetry, multiple sitting areas and expansive views. The open-concept kitchen features an oversized six seat island with a beverage cooler, ample counter space, and plenty of storage. Just off the kitchen is a powder room and a large laundry room. The kitchen opens to a second dining area, sitting/sunroom, and the main living room, which boasts cathedral ceilings and a gas-burning fireplace. On the opposite side of the home, past the formal dining/pool table room and the modern sitting room with heated electric fireplace, is a private office with handsome built-ins. Next is the primary suite which has its own private access to the upper-level covered back flagstone porch. Large windows fill the primary bedroom with natural light and views of the backyard retreat. The spa-like primary bathroom includes an oversized shower, freestanding soaking tub, his-and-hers vanities, and a custom his-and-hers walk-in closet. Upstairs are two generously sized bedrooms, each with custom wood closets, connected by a modern Jack-and-Jill
