3 Bedrooms | 3 Bathrooms | 1,587 Sqft

Welcome to this charming jewel box in the heart of Old Mount Pleasant--a completely reimagined, designer-renovated ranch set on approximately a quarter-acre lot. Offering 3 bedrooms, 3 full bathrooms, and 1,587 square feet of single-level living, the home proves that exceptional design is less about size and more about detail. Every inch has been thoughtfully considered, pairing timeless materials, custom craftsmanship, and collected finishes with the ease of a classic Old Mount Pleasant lifestyle. At the center of the home, the kitchen is a study in elevated, layered design. Custom solid-wood inset cabinetry is complemented by wood countertops, handmade Italian tile, polished nickel hardware, and a custom plate rack. Appliances include a 36-inch AGA induction range, panel-ready Miele column refrigerator, panel-ready Sub-Zero freezer, and Bosch dishwasher. Matilda Goad pendant lighting, custom fabric cabinet inserts, and a farmhouse sink with Kingston Brass fixtures complete the space. The primary suite continues the home's tailored aesthetic with custom window treatments, a Sierra Pacific push-out casement window, Visual Comfort lighting, Forbes & Lomax switches, and a custom closet. Its adjoining bathroom underwent a \$75,000+ renovation and features heated floors, marble shower flooring, handmade Spanish tile, Calacatta
