\$720,000

3 Bedrooms | 2 Bathrooms | 2,088 Sqft

Set on a serene pond in Park West's Marsh Walk, this 3-bedroom, 2-bath home offers 2,088 square feet with an exceptionally livable floor plan, inviting outdoor spaces, a freshly painted exterior and new interior paint throughout much of the home. From the street, the home welcomes you with mature landscaping and a large covered front porch that can be gated and fully enclosed, creating a wonderful extension of the home's outdoor living space. A two-car garage and driveway provide ample off-street parking. Step inside to a bright, comfortable interior where hardwood floors, crown molding and plantation shutters enhance much of the main level. Just off the foyer, the dining area features a tray ceiling with wood plank detailing and horizontal shiplap wainscoting that continues into the adjoining kitchen. The kitchen pairs this character with quartz countertops, a white subway tile backsplash, ample cabinetry, stainless steel appliances, a gas range and tile flooring. A wood plank ceiling adds another layer of detail overhead. The kitchen and dining area flow naturally into the living room, where a tray ceiling, crown molding and gas-log fireplace create an inviting gathering space. Windows and glass French doors bring in natural light while drawing your eye toward the pond beyond. The first-floor primary suite is privately positioned and generously sized,
