Custom Craftsman Estate - Timber-Framed Great Room | Hidden Speakeasy | Exceptional Outdoor Living - This extraordinary custom Craftsman residence was designed to be as memorable as it is livable, combining substantial architectural detailing, authentic materials and exceptional indoor-outdoor entertaining spaces. From the street, the home makes an immediate statement with its layered gables, Hardie board-and-batten siding and Hardie shake accents, Galvalume standing-seam metal roof, natural timber detailing and Andersen 400 windows. Inside, the level of craftsmanship becomes even more apparent. Ten-foot ceilings, 8-foot doors, real hardwood flooring, upgraded lighting and plumbing fixtures, custom millwork and extensive natural wood detailing create a home that feels genuinely upgraded. The centerpiece is the breathtaking vaulted great room, where an approximately \$110,000 custom real-timber package creates one of the home's defining architectural features. A series of exposed arched timber trusses rises above the living space beneath the vaulted ceiling, complemented by a timber ridge beam and elevated windows. A dramatic floor-to-ceiling masonry fireplace anchors the room, with custom bookcases flanking the fireplace and additional built-in cabinetry along the room. The combination of stone, real timber and hardwood
